NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Cultivar ETF (the “Fund”) is a non-diversified series of ETF Opportunities Trust, a Delaware statutory trust (the “Trust”) which was organized on March 18, 2019 and is registered under the Investment Company Act of 1940, as amended (the “1940 Act”) as an open-end management investment company. The offering of the Fund’s shares is registered under the Securities Act of 1933, as amended. The Fund commenced operations on December 22, 2021.

The Fund’s investment objective is to seek to achieve long-term capital appreciation.

The Fund is deemed to be an individual operating and reporting segment and is not part of a consolidated reporting entity. The objective and strategy, as outlined in the Fund’s prospectus under the heading “Principal Investment Strategies,” are used by Cultivar Capital, Inc. (the “Advisor”) to make investment decisions, and the results of the Fund’s operations, as shown in its Statement of Operations and Financial Highlights, are the information utilized for the day-to-day management of the Fund. Due to the significance of oversight and its role in the Fund’s management, the Advisor’s portfolio managers are deemed to be the Chief Operating Decision Maker.

The following is a summary of significant accounting policies consistently followed by the Fund. The policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The Fund follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 “*Financial Services – Investment Companies*”.

Security Valuation

The Fund records its investments at fair value. Generally, the Fund’s domestic securities are valued each day at the last quoted sales price on each security’s primary exchange. Securities traded or dealt in upon one or more securities exchanges for which market quotations are readily available and not subject to restrictions against resale are valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the NASDAQ National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities are valued at their fair market value as determined in good faith under procedures

approved by the Trust's Board of Trustees (the "Board"). Although the Board is ultimately responsible for fair value determinations under Rule 2a-5 of the 1940 Act, the Board has delegated day-to-day responsibility for oversight of the valuation of the Fund's assets to the Advisor as the Valuation Designee pursuant to the Fund's policies and procedures. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally are valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask prices on such over-the-counter market. Generally, trading in US government securities is substantially completed each day at various times before the scheduled close of the New York Stock Exchange. The Fund values these securities using the last quoted sales price each day.

The Fund has a policy that contemplates the use of fair value pricing to determine the Net Asset Value ("NAV") per share of the Fund when market prices are unavailable as well as under special circumstances, such as: (i) if the primary market for a portfolio security suspends or limits trading or price movements of the security; and (ii) when an event occurs after the close of the exchange on which a portfolio security is principally traded, but prior to the time as of which the Fund's NAV is calculated, that is likely to have changed the value of the security.

When the Fund uses fair value pricing to determine the NAV per share of the Fund, securities will not be priced on the basis of quotations from the primary market in which they are traded, but rather may be priced by another method that the Valuation Designee believes accurately reflects fair value. Any method used will be approved by the Board and results will be monitored to evaluate accuracy. The Fund's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security values as of the time of pricing.

The Fund has adopted fair valuation accounting standards that establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs used to develop the measurements of fair value. These inputs are summarized in the three broad levels listed below.

Various inputs are used in determining the value of the Fund's investments. GAAP established a three-tier hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable market-based inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.). Level 3 includes significant

unobservable inputs (including the Fund's own assumptions in determining fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the level of inputs used to value the Fund's investments as of January 31, 2026:

	Level 1 Quoted Prices	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Total
Common Stocks	\$33,729,390	\$ —	\$ —	\$33,729,390
US Treasury Bonds	—	2,377,207	—	2,377,207
US Treasury Bills	—	1,579,529	—	1,579,529
	<u>\$33,729,390</u>	<u>\$ 3,956,736</u>	<u>\$ —</u>	<u>\$37,686,126</u>

Refer to the Fund's Schedule of Investments for a listing of the securities by type and sector. The Fund held no Level 3 securities at any time during the six months ended January 31, 2026.

Security Transactions and Income

Security transactions are accounted for on the trade date. The cost of securities sold is determined generally on a specific identification basis to calculate realized gains and losses from security transactions for book and tax purposes. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Foreign Currency Translation

The books and records of the Fund are maintained in U.S. dollars. Investment valuations and other assets and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Prevailing foreign exchange rates may generally be obtained at the close of the NYSE (normally, 4:00 p.m. Eastern Time). The portion of realized and unrealized gains or losses on investments due to fluctuations in foreign currency exchange rates is not separately disclosed and is included in realized and unrealized gains or losses on investments, when applicable.

Accounting Estimates

In preparing financial statements in conformity with GAAP, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of investment income and expenses during the reporting period. Actual results could differ from those estimates.

Federal Income Taxes

The Fund has complied and intends to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. The Fund also intends to distribute sufficient net investment income and net capital gains, if any, so that it will not be subject to excise tax on undistributed income and gains. Therefore, no federal income tax or excise provision is required.

Management has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken in the Fund's tax returns. The Fund has no examinations in progress and management is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months. Interest and penalties, if any, associated with any federal or state income tax obligations are recorded as income tax expense as incurred.

Reclassification of Capital Accounts

GAAP requires that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. For the six months ended January 31, 2026, there were no such reclassifications.

Dividends and Distributions

Dividends from net investment income, if any, are declared and paid at least annually by the Fund. The Fund distributes its net realized capital gains, if any, to shareholders annually. The Fund may also pay a special distribution at the end of a calendar year to comply with federal tax requirements. All distributions are recorded on the ex-dividend date.

Creation Units

The Fund issues and redeems shares to certain institutional investors (typically market makers or other broker-dealers) only in blocks of at least 10,000 shares known as “Creation Units.” Purchasers of Creation Units (“Authorized Participants”) will be required to pay to Citibank, N.A. (the “Custodian”) a fixed transaction fee (“Creation Transaction Fee”) in connection with creation orders that is intended to offset the transfer and other transaction costs associated with the issuance of Creation Units. The standard Creation Transaction Fee will be the same regardless of the number of Creation Units purchased by an investor on the applicable Business Day. The Creation Transaction Fee charged by the Custodian for each creation order is \$300. Authorized Participants wishing to redeem shares will be required to pay to the Custodian a fixed transaction fee (“Redemption Transaction Fee”) to offset the transfer and other transaction costs associated with the redemption of Creation Units. The standard Redemption Transaction Fee will be the same regardless of the number of Creation Units redeemed by an investor on the applicable Business Day. The Redemption Transaction Fee charged by the Custodian for each redemption order is \$300.

Except when aggregated in Creation Units, shares are not redeemable securities. Shares of the Fund may only be purchased or redeemed by Authorized Participants. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company (“DTC”) participant and, in each case, must have executed an agreement with the Fund’s principal underwriter (the “Distributor”) with respect to creations and redemptions of Creation Units (“Participation Agreement”). Most retail investors will not qualify as Authorized Participants or have the resources to buy and sell whole Creation Units. Therefore, they will be unable to purchase or redeem the shares directly from the Fund. Rather, most retail investors will purchase shares in the secondary market with the assistance of a broker and will be subject to customary brokerage commissions or fees. The following table discloses the Creation Unit breakdown based on the NAV as of January 31, 2026:

	Creation Unit Shares	Creation Transaction Fee	Value
Cultivar ETF	10,000	\$300	\$291,000

To the extent contemplated by a participant agreement, in the event an Authorized Participant has submitted a redemption request in proper form

but is unable to transfer all or part of the shares comprising a Creation Unit to be redeemed to the Distributor, on behalf of the Fund, by the time as set forth in a participant agreement, the Distributor may nonetheless accept the redemption request in reliance on the undertaking by the Authorized Participant to deliver the missing shares as soon as possible, which undertaking is secured by the Authorized Participant's delivery and maintenance of collateral equal to a percentage of the value of the missing shares as specified in the participant agreement. A participant agreement may permit the Fund to use such collateral to purchase the missing shares, and could subject an Authorized Participant to liability for any shortfall between the cost of the Fund acquiring such shares and the value of the collateral. Amounts are disclosed as Segregated Cash Balance from Authorized Participants for Deposit Securities and Collateral Payable upon Return of Deposit Securities on the Statement of Assets and Liabilities, when applicable.

Officers and Trustees Indemnification

Under the Trust's organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts with its vendors and others that provide for general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund. However, based on experience, the Fund expects that the risk of loss will be remote.

NOTE 2 – INVESTMENT ADVISORY AND DISTRIBUTION AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

The Advisor currently provides investment advisory services pursuant to an investment advisory agreement (the "Advisory Agreement"). Under the terms of the Advisory Agreement, the Advisor is responsible for the day-to-day management of the Fund's investments. The Advisor also: (i) furnishes the Fund with office space and certain administrative services; (ii) provides guidance and policy direction in connection with its daily management of the Fund's assets, subject to the authority of the Board; and (iii) is responsible for oversight of the Fund's sub-advisor. Under the Advisory Agreement, the Advisor has agreed, at its own expense and without reimbursement from the Fund, to pay all expenses of the Fund, except for: the fee paid to the Advisor pursuant to the Investment Advisory Agreement, interest expenses, taxes, acquired fund fees and expenses, brokerage commissions and any other portfolio transaction related expenses and fees arising out of transactions effected on behalf of the Fund,

credit facility fees and expenses, including interest expenses, and litigation and indemnification expenses and other extraordinary expenses not incurred in the ordinary course of the Fund's business.

For its services with respect to the Fund, the Advisor is entitled to receive an annual advisory fee, calculated daily and payable monthly as a percentage of the Fund's average daily net assets, at the rate of 0.87%.

Temporary differences arise when certain items of income, expense, gain or loss are recognized in different periods for financial statement and tax purposes; these differences will reverse at some time in the future. Differences in classification may also result from the treatment of short-term gains as ordinary income for tax purposes.

Shares of the Fund are listed for trading on the Cboe BZX Exchange (the “Exchange”) and trade at market prices rather than at NAV. Shares of the Fund may trade at a price that is greater than, at, or less than NAV. Creation Units are issued and redeemed for cash and/or in-kind for securities. Individual shares may only be purchased and sold in secondary market transactions through brokers. Except when aggregated in Creation Units, the shares are not redeemable securities of the Fund.

All orders to create Creation Units must be placed with the Fund’s distributor or transfer agent either (1) through the Continuous Net Settlement System of the NSCC (“Clearing Process”), a clearing agency that is registered with the U.S. Securities and Exchange Commission (“SEC”), by a “Participating Party,” i.e., a broker-dealer or other participant in the Clearing Process; or (2) outside the Clearing Process by a DTC Participant. In each case, the Participating Party or the DTC Participant must have executed an agreement with the Distributor with respect to creations and redemptions of Creation Units (“Participation Agreement”); such parties are collectively referred to as “APs” or “Authorized Participants.” All Fund shares, whether created through or outside the Clearing Process, will be entered on the records of DTC for the account of a DTC Participant.

Statement Regarding Basis for Approval of Investment Advisory Contract.***Investment Advisory Agreement and Sub-Advisory Agreement Renewal and Approval Cultivar ETF***

At a meeting held on September 23-24, 2025 and on October 29, 2025 (each a “Meeting”), the Board of Trustees (the “Board”) of the ETF Opportunities Trust (the “Trust”) considered the approval of the continuation of the Amended and Restated Investment Advisory Agreement (the “Advisory Agreement”) between the Trust and Cultivar Capital, Inc. (“Cultivar”) and the Amended and Restated Delegated Services Sub-Advisory Agreement (the “Sub-Advisory Agreement”) between Cultivar and Tidal Investments, LLC (“Tidal”), each with respect to the Cultivar ETF. The Board discussed the arrangements between Cultivar and the Trust and Cultivar and Tidal with respect to the Cultivar ETF. The Board reflected on its discussions with the representatives from Cultivar earlier in the Meeting regarding the manner in which the Cultivar ETF was to be managed and the roles and responsibilities of Cultivar and Tidal under the Advisory Agreement and the Sub-Advisory Agreement (collectively, the “Cultivar Advisory Agreements”).

The Trustees reviewed a memorandum from Trust Counsel that addressed the Trustees’ duties when considering the continuation of the Cultivar Advisory Agreements and the responses of Cultivar and Tidal to requests for information from Trust Counsel on behalf of the Board. A copy of this memorandum had been provided to the Trustees in advance of the Meeting. The Trustees also

reviewed the responses of Cultivar and Tidal to requests for information from Trust Counsel on behalf of the Board and noted that the responses included a copy of financial information for Cultivar and Tidal, an expense comparison analysis for the Cultivar ETF and comparable ETFs, and the Cultivar Advisory Agreements. The Trustees discussed the types of information and factors that should be considered by the Board in order to make an informed decision regarding the approval of the Cultivar Advisory Agreements, including the following material factors: (i) the nature, extent, and quality of the services provided by Cultivar and Tidal; (ii) the investment performance of the Cultivar ETF and Cultivar; (iii) the costs of the services to be provided and profits to be realized by Cultivar and Tidal from their relationship with the Cultivar ETF; (iv) the extent to which economies of scale would be realized if the Cultivar ETF grows and whether advisory fee levels reflect those economies of scale for the benefit of its shareholders; and (v) possible conflicts of interest and other benefits.

In assessing these factors and reaching its decisions, the Board took into consideration information specifically prepared or presented at the Meeting. The Board requested or was provided with information and reports relevant to the approval of the Cultivar Advisory Agreements, including: (i) information regarding the services and support to be provided by Cultivar and Tidal to the Cultivar ETF and its shareholders; (ii) presentations by management of Cultivar and Tidal addressing the investment philosophy, investment strategy, personnel and operations to be utilized in managing the Cultivar ETF; (iii) information pertaining to the compliance structure of Cultivar and Tidal; (iv) disclosure information contained in the Cultivar ETF's registration statement and Cultivar's and Tidal's Forms ADV and/or their policies and procedures; and (v) the memorandum from Trust Counsel that summarized the fiduciary duties and responsibilities of the Board in reviewing and approving the Cultivar Advisory Agreements, including the material factors set forth above and the types of information included in each factor that should be considered by the Board in order to make an informed decision.

The Board considered that it also requested and received various informational materials including, without limitation: (i) documents containing information about Cultivar and Tidal, including financial information, information on personnel and the services to be provided by Cultivar and Tidal to the Cultivar ETF, each firm's compliance program, information on any current legal matters, and other general information; (ii) expenses of the Cultivar ETF and comparative expense and performance information for other ETFs with strategies similar to the Cultivar

ETF prepared by an independent third party; (iii) the anticipated effect of size on the Cultivar ETF's performance and expenses; and (iv) benefits anticipated to be realized by Cultivar and Tidal from their relationship with the Cultivar ETF.

The Board did not identify any particular information that was most relevant to its consideration to approve the Cultivar Advisory Agreements and each Trustee may have afforded different weight to the various factors. In deciding whether to approve the Cultivar Advisory Agreements, the Trustees considered numerous factors, including:

The nature, extent, and quality of the services provided by Cultivar and Tidal.

In this regard, the Board considered the responsibilities of Cultivar and Tidal under their respective Cultivar Advisory Agreement. The Board reviewed the services provided by Cultivar and by Tidal to the Cultivar ETF, including, without limitation, Cultivar's process for formulating investment recommendations and the processes of both Cultivar and Tidal for assuring compliance with the Cultivar ETF's investment objectives and limitations; Tidal's processes for trade execution and broker-dealer selection for portfolio transactions; the coordination of services by Cultivar for the Cultivar ETF among the service providers; and the anticipated efforts of Cultivar to promote the Cultivar ETF and grow its assets. The Board considered: the staffing, personnel, and methods of operating of Cultivar and Tidal; the education and experience of their personnel; and information provided regarding their compliance programs, policies and procedures. The Board considered the methods utilized by Cultivar in supervising Tidal as a sub-adviser to the Cultivar ETF and the relationship between Cultivar and Tidal. After reviewing the foregoing and further information from Cultivar and Tidal, the Board concluded that the quality, extent, and nature of the services provided by Cultivar and Tidal were satisfactory and adequate for the Cultivar ETF.

The investment performance of the Cultivar ETF

The Board reviewed the Cultivar ETF's performance. In considering its investment performance, the Board reviewed reports prepared by Broadridge Financial Solutions ("Broadridge"), and compared the performance of the Cultivar ETF with the performance of its benchmark index, the Russell 3000 Index ("Russell 3000"), the funds in its Morningstar category, the Mid-Cap Value Funds category (its "Category"), and a peer group selected from its Category by Broadridge, consisting of 13 funds (its "Peer Group"). The Board noted that the Cultivar ETF had underperformed the Russell 3000, and the medians of its Category and Peer Group, for the one-year and three-year periods ended June 30, 2025.

In discussing the Cultivar ETF's underperformance, the Board noted that, as explained by the Adviser, although the Cultivar ETF is in the Mid-Cap Value Funds category, its strategy is more of an all-cap strategy that generally includes more small-cap stocks which affects how the Cultivar ETF performs compared to its Peer Group and Category.

After a detailed discussion of the Cultivar ETF's performance, the Board concluded, in light of all the facts and circumstances, that the investment performance of the Cultivar ETF's performance was satisfactory, but noted that it would continue to monitor the Cultivar ETF's performance.

The costs of services to be provided and profits to be realized by Cultivar and Tidal from their relationship with the Cultivar ETF

In this regard, the Board considered the financial condition of Cultivar and the level of commitment to the Cultivar ETF by Cultivar. The Board also considered the assets and expenses of the Cultivar ETF, including the nature and frequency of advisory and sub-advisory fee payments. The Board noted the information on profitability provided by Cultivar and Tidal. The Trustees considered Cultivar ETF's unitary fee structure and compared the unitary fee of the Cultivar ETF to the fees of the medians of its Category and Peer Group. The Trustees noted that the Cultivar ETF's gross and net expense ratio and gross and net advisory fee were each higher than the medians of its Category and Peer Group, but that the Cultivar ETF's expense ratios and advisory fees were within the range of other funds in its Category and Peer Group. The Board noted that Cultivar does not manage separate accounts with strategies similar to the Cultivar ETF. The Trustees also considered the split of the advisory fees paid to Cultivar versus those paid to Tidal and the respective services provided by each to the Cultivar ETF. The Board also considered that Tidal represented that its fee for sub-advising the Cultivar ETF is consistent with the range of fees charged to its other clients.

After further consideration, the Board concluded that the profitability of Cultivar and Tidal was not unreasonable, and the fees to be paid to Cultivar (who in turn pays Tidal) were within an acceptable range in light of the services to be rendered by Cultivar and Tidal.

The extent to which economies of scale would be realized as the Cultivar ETF grows and whether advisory fee levels reflect these economies of scale for the benefit of the Cultivar ETF's shareholders.

The Trustees considered that, at the Cultivar ETF's current size, it was not anticipated that Cultivar or Tidal would achieve economies of scale with respect to the services provided to the Cultivar ETF. They noted that the unitary fee structure of the Cultivar ETF limits shareholders' exposure to fee and expense increases.

Possible conflicts of interest and other benefits.

In evaluating the possibility for conflicts of interest, the Board considered such matters as: the experience and ability of the advisory and sub-advisory personnel assigned to the Cultivar ETF; the basis of decisions to buy or sell securities for the Cultivar ETF; the substance and administration of the Code of Ethics and other relevant policies of Cultivar and Tidal. The Board noted that Cultivar and Tidal have each represented that it does not utilize soft dollars or commission recapture with regard to the Cultivar ETF. The Board also considered potential benefits for Cultivar and Tidal in managing the Cultivar ETF. Following further consideration and discussion, the Board concluded that the standards and practices of Cultivar and Tidal relating to the identification and mitigation of potential conflicts of interest, as well as the benefits to be derived by each of Cultivar and Tidal from managing the Cultivar ETF were satisfactory.

After additional consideration of the factors delineated in the memorandum provided by Trust Counsel and further discussion and careful review by the Trustees, the Board determined that the compensation payable under each Cultivar Advisory Agreement was fair, reasonable and within a range of what could have been negotiated at arms-length in light of all the surrounding circumstances, and approved the continuation of the Cultivar Advisory Agreements for the Cultivar ETF.
